Welcome to 2kBill eCommerce Solutions.

Our company provides solutions for webmasters and online merchants who wish to build e-commerce sites. We provide a wide range of services including online billing and payment processing for merchants, consulting and web design. Our target is small and medium size businesses.

Need billing solution for your website?

2k Billing Solutions allows merchants to open an account and easily setup their websites to accept electronic payments from their clients. In addition, for sites and portals that sell their product on membership basis (such as online magazines and entertainment websites) we offer management system that creates accounts for customers, maintain them and revoke subscriptions. Thus, any of our clients can save on overhead that is associated with this task.
